Policy statements

Student integrity and honesty

Veritas Institute Australia is committed to upholding standards of student integrity and honesty in regard to the assessment of their work and places value in the declarations of authenticity made by students.

Students are expected to act with integrity at all times and only submit work that is their own, or that has been appropriately referenced and includes acknowledgements of all texts and resource materials utilised in the development of the work.

Students and staff have a duty to ensure they gain the necessary understanding of how to correctly acknowledge and cite references and resources so as to minimise the incidents of plagiarism and cheating and the allegations of such.

Prior to commencing studies, students are provided with information about academic integrity, including information about expectations regarding AI and LLM usage as well as procedures for dealing with academic dishonesty and associated consequences, in Veritas Institute Australia's Student Handbook and during orientation.

Unacceptable behaviour

From time to time, there may be incidents of student plagiarism, cheating and collusion which Veritas Institute Australia is required to act upon in order to uphold the value of assessment outcomes and the reputation of the nationally recognised training provided.

Usage of AI/LLM created work is not acceptable in any submission made as part of an official assessment at Veritas Institute Australia. The use of such tools as aids for the purpose of brainstorming and idea generation are acceptable, but any use of them to generate answers to assessment questions directly is not allowed.

Student plagiarism, cheating and collusion in any form are unacceptable and will be treated seriously by Veritas Institute Australia.
